

Announcement:

Florida Authorized Gopher Tortoise Agent at Crossroads Environmental Consultants, Inc.

As of April 22, 2009 the FFWCC has implemented permitting changes with regards to the Gopher Tortoise (GT). All GT burrows to be impacted must be relocated, new mitigation fee contributions have been implemented, as well as the creation of the Authorized GT Agent Permit. According to these new rules most GT relocation activities require the use of an FFWCC authorized GT agent for permit processing, conducting surveys, all off site relocations, and certain on site relocation activities.
